

Air Force representatives from Hill Air Force Base were in Heber for several days last week during the test and evaluation of new snow removal equipment. The snow plow is manufactured by Idaho-Norland for use by the military. It is capable of high speed snow removal from airport runways. The plow uses up to a 16 foot blade or a snow blower.

20 Feb 1986

In test at the Heber Valley Airport the plow was able to move through six inches of snow at speeds between 40 and 50 miles per hour. It is powered by a 460 horsepower engine.

Air Force spokesman noted that the plow had the advantage of using only one engine which would eliminate a considerable amount of maintenance.

Open Houses Come to the Heber Valley

Just what is an "Open House"? Open houses are provided by the realtors as a means of letting interested parties preview homes which are listed for sale. Open houses also allow the public to ask professionals the questions about the individuals ability to afford a home in todays economy. If you are in the market for a first home, a larger home, or a

other properties which are available in case the Host Open House doesn't suit your needs.

On February 22 and 23, CENTURY 21, Wasatch Mountain Properties of Heber City will be holding a Open House at Swiss Meadows (400 So. 100 E. Midway). Realtor agents will be available to show you the homes Saturday 1 p.m. - 5 p.m., Sunday

The "**Lone Eagle**," as Lindbergh was called, made the first solo nonstop flight across the Atlantic Ocean. His historic journey in 1927 in the *Spirit of St. Louis* took 33½ hours and covered more than 3,600 miles (5,790 kilometers).
